## FURNITURE PRODUCTION

FROM INDIVIDUALS TO PROFESSIONALS

---

Since its creation, Roche Bobois has been developing exclusive collections for its network of showrooms and for use by individual customers.

Today, Roche Bobois applies its production expertise to serve professionals, project managers, architects, decorators and influencers via a dedicated Contract department.

Professionals can now rely on our assistance with all types of projects: residential, hotels, offices, real estate development, and more.

The Roche Bobois Contract service offers you special access to the brand's designs, while also helping you to select products and their finishes. Working closely with you, we advise you on interior layout options.

Production is carried out exclusively in our European workshops, which allows for fast lead times and customised materials, dimensions and finishes, in keeping with the Brand's quality and eco-design standards.

**FAUCHON**  
**L'HÔTEL**  
PARIS

In 2018, Fauchon - a French luxury delicatessen - opened Fauchon L'Hôtel on place de la Madeleine in Paris.

For each room in this exceptional boutique hotel, Roche Bobois designed a piece of furniture to organise and showcase the selection of Fauchon products offered to each customer.

Designer Sacha Lakic, who has developed many pieces for Roche Bobois, designed this display piece: a treasure trove of delicacies reinventing the traditional hotel minibar.

The Gourmet Bar's graphic exterior opens to reveal a gourmet interior, encapsulating the many aspects of the French Art de Vivre championed by Roche Bobois.

# ELSA

Hotel - Paris
