Edito

Creating a new collection means imagining new shapes and different silhouettes, giving way to creativity and imagination. It also calls for a bold reinterpretation of existing designs through new colours and perspectives.

At the heart of our creative process there is always great attention to detail, precise finishes and craftsmanship.

Because each creation at Roche Bobois is designed to withstand time and trends.

We are pleased to present to you a selection of the new Spring – Summer 2022 Collection, now available online at roche-bobois.com and in-store.
