Designing a collection is first and foremost about uniting talented individuals.

The Fall-Winter 2025 collection was born from creative dialogs, converging views, and unprecedented collaborations.

This season, Roche Bobois opens a conversation between design and cinema with an exceptional collaboration with Spanish film director Pedro Almodóvar. This unique partnership has sparked several exclusive pieces where color – an integral part of emotion and creativity – connects graphic art and design.

In addition to this collaboration, the collection offers many new creations that balance creativity, comfort, and savoir-faire, all with the signature touch of French boldness that defines the essence of Roche Bobois.
