Whether featured on patios, in gardens or by the poolside – reflecting the sun's golden rays under a clear blue sky – it marries creative design with artisanal craftsmanship in a relaxing al fresco setting. With this collection, we invite you to discover a new take on outdoor design: one that is elegant, innovative and responsible.

Echoes

designed by Mauro Lipparini

Imagined for outdoor use, this table features an intentionally minimalist design: two oblique U-shaped legs, supporting a slightly beveled octagonal top in glass/ceramic composite. The extremely durable finish, elegantly resembling stone and marble, is designed to endure the test of time.

Traveler

designed by Stephen Burks

Conceived by American designer Stephen Burks, Traveler is a complete collection for reading, dining and lounging. It combines a refined, lacquered steel tubular frame with woven cords available in three colorways: vibrant (coral, red and yellow), calm (grey, white and cobalt blue) and natural (mouse gray, beige and brick). The spectacular hooded armchair is not only sculptural, but also extremely comfortable.
